We at ISTM are committed to satisfy our students by providing excellent service in the field of education. We aim to do this with a high degree of social sensitivity through innovation and continual...

Upgrading of our skills and provide quick response to student queries.

Nurturing talent, building a learning environment and developing linkages with universities and institutes for maximum benefit of our students.

Improvement of course curriculum through educational research and dialogue with business enterprises characterized by significance, relevance, excellence and vigor.

Reviewing of institutional processes by involvement of faculties, students and staff.

Using information technology's support to reach maximum number of our students and to train them.

We ensure all this by setting quality objectives and continual improvement in our services and this global, culturally diverse and technically advanced social arena, characterized by rapid change and complex interdependencies, we aim to empower business and their leaders to understand and address the far reaching changes affecting the world.

ISTM paves a path to early success in life through its fast-track, short duration correspondence courses. These courses consist of concepts and case studies that provide broad exposure to relevant business concepts and management specifics. This helps students to get started by enhancing their productivity, capability to formulate business policies, strategies and their implications for the organization.

ISTM will:

- Enhance the career of students in business and management sectors.
- Democratize higher education by taking it to the door step of the learners.
- Providing access to high quality education to all those who seek it irrespective of age, region or formal qualifications.
- Provide short duration programs in various faculties which enable the candidates/students to acquire value based and world-class Management qualifications while working.
- Offer need-based programs by imparting professional and vocational orientation to the courses.
- Promote and develop distance education in India.
- Set and maintain standards in distance education across the country as an apex body for the purpose.

ISTM adheres to the best of international management principles, practices of management. These courses are designed for those who have burning desire to pursue a career in technology and management. The students will qualify without disrupting their current career progression and earning. Candidates can opt for flexible management courses and qualify by short duration from the comfort of their location.

We invite all those who share our vision, goals and purpose to join hands to build a new cadre of encoder of management professionals, who will participate actively in the growth of this era of economic growth , liberalization and globalization.

Come, let's build a prosperous new world together.

Our VISION is to...

- Be a premier focus of management education.
- Nurture thoughts, leaders and practitioners through innovative education. Shape a better future for mankind by developing effective and socially responsible individuals & organizations.

Our MISSION is to...

Prepare the innovative and entrepreneurial leaders of the future with the capacity to anticipate and manage change in international business and the professional environment. We ensure that our students become complete and successful managers in the shortest period. Students from our accredited and approved courses can be confident that they hold a nationally and internationally recognized award which will, open doors and enhance their career opportunities

Our Goals and Objectives

- Develop competent and effective professional managers.
- Foster intellectual excellence.
- Acquire systematic approach to identification of business problems and their solutions.
- To teach the practical skills for everyday life.
- Acquire a broad knowledge of concepts, policies and techniques applicable to efficient administration and management of business.
- Reach those who either live in or are posted in remote areas of India and have no regular educational facilities. Provide opportunity to the students who have left their education due to some unavoidable reasons and now want to continue with their career progression.
- Meet the need of exposing students to CSR (Corporate Social Responsibility) and help them to understand the environmental impact of business.

- The course material offered by ISTM is self explanatory & easy to understand.
- The course content is equipped with examples & case studies.
- The study material includes full range of syllabus thus enabling the student with full & complete content which saves the students time & money as they receive a complete package of relevant material.
- The course contents are with latest headings which many multinational companies entail.
- The students can take up the examination at their own pace as and when they are confident of giving the examination, they can request for question papers which can be answered at their geographical locations.
- If the student desires to appear for his examination online, he can opt for it at the nearest ISTM center.

The same can be opted at the time of registration.

- ISTM provides alumni verification services which assures the student that the certificate is validated anytime in any corner of the world.

ISTM ONLINE PROGRAM FEATURES

E-Learning

ISTM has introduced an easy accessible and adaptive way of learning. ISTM's e-learning modules have their own unique features which not only assist students but also working professionals, home makers and those who have a determined interest in learning and broaden their knowledge.

E-Learning key features

- Real-time access
- Paperless
- Possibly adaptive
- Personalized learning
- Global

ISTM's E-Learning wings

- Live Video Lecture
- E-Library
- LMS
- Recorded Video Lecture
- YouTube
- Pearson

Live Video Lecture

ISTM provides interactive business and management live video lectures conducted by eminent faculties from reputed organizations, colleges and universities around the globe. These lectures are delivered live and are interactive sessions where students can raise their doubts via single click.

Our video lectures are conducted online across the globe to help students, apprentice, working professionals understand the core of business management. Access to these lectures shall stay with students

for viewing later in recorded format. Not only student's foundation and basic knowledge will be set in an apt manner, but simultaneously, students will learn about advanced concepts related to the same. With our engaging and live/recorded video formats, our faculties make even the most challenging topics easy to comprehend and enjoyable to learn, through interaction over chat and emails. Core and crucial areas pertaining to business management are covered by our panel of experts which will help students in improving their business management expertise.

Recorded Video Lecture

Recorded lectures are stored in our e-library for student's reference purpose. Recorded lectures are delivered by eminent faculties from the industry. These lectures are not only course specific but also in sync with live examples, current affairs, case studies and presentations. While these lectures are conducted, students can post their queries, doubts to respective faculties which would be sermonized via email or chat option. Students can use this option any time for their reference purpose. This is the most user friendly and any time accessible learning tool.

E-Library

E-Library is the most useful learning tool for students. These days students, working professionals, and any field learners are seen using smart phone's, tablets, and laptops everywhere. E-Library is accessible to all students with their login credentials. This is an easy access to all possible study material. A huge collection of E- Books, Case study, Sample Papers, Course Content, Recorded Lectures, Projects is available at e-library. ISTM ensures the e-library is updated time to time.

Youtube

The most visited site for videos and movies. ISTM has its own private channel where students can subscribe and view lectures. Students can post their comments and suggestions.

LMS

Learning Management System is the place where a student's e-learning journey begins. Student's time table, course fees, admission details, assignments and much more is available once the student logs in. Access to e-library, lectures, sample question papers, case study is made available on LMS for all students.

Pearson

ISTM in collaboration with Pearson Education

Pearson Education is the world's biggest education company. Pearson Education's solutions cover a wide spectrum of subjects including business, technology, sciences, law and the humanities. They include books and resources that help students learn, teachers teach, and professionals evolve throughout their careers. The carefully designed learning tools help people around the world to expand their knowledge, develop their skills and realize their potential.

Pearson & ISTM in collaboration will energize content for ISTM courses, thus the students learning these courses will now have an edge over other students learning the same courses in other institutes.

Key features which are available in ISTM Pearson access for students

- Course Content
- Student Resources
- Video Resources
- Test
- Assignments
- Grade Book
- Class Information
- Roster
- Forums
- Wiki
- Statistics

Online Admission Facility

Students can now avail the facility of enrolling online. Students across the globe can enroll for their desired courses, anytime and anywhere. Online admission facility will allow students to choose their course, take career counseling online, and verify their eligibility and most importantly students can pay their fees online via wide range of payment options.

Social Media Presence

AL-NOOR FOUNDATION

www.alnoorfoundation.org

Thoughts

Our Foundation strongly believes in every child's right to public or publicly funded education of good quality. Our Foundation recognizes and cherishes the critical, role played by principals, other school leaders and their schools in providing education services to the communities in which they operate. School leaders, in particular, are strategically positioned to ensure that their schools provide quality education by creating conditions for effective teaching and learning in their institutions.

However, Our Foundation notes that the rapidly changing economic, social and cultural environments in which schools operate have created new challenges for school leaders. For example, the implementation of decentralization policies and new accountability demands have made school leadership more and more complex. These demands require school leaders to be more multi skilled and more versatile, as they are called upon to make more complex management and administrative decisions, while at the same time providing the necessary pedagogical leadership in the school.

Our Foundation supports school principals and other school leaders in their quest to improve teaching and learning in their institutions and the conditions under which teachers and other education employees work. It is only through education that problems such as healthcare, poverty, population control, unemployment, human rights, etc. can be eradicated. Education is both the means as well as the end to a better

life because it empowers an individual to earn his/her livelihood and) the end because it increases one's awareness on a range of issues – from healthcare to appropriate social behavior to understanding one's rights and in the process evolve as a better citizen.

Our Foundation and Al-Noor Foundation together have joined hands for this noble cause.

Al-Noor Foundation is an initiative taken by Her Excellency 'Ms. Salma Ansari'.

We hereby appeal to all the responsible citizens of the world to get together and contribute for this noble cause.

We are inviting applications for scholarship for the economically challenged students.

Perfection is not attainable, but if we chase perfection we can catch excellence.

- Vince Lombardi
